This was decided upon at the general meeting last night of the various committees having the celebration in charge. There will be no admis There will be no admisfor specially invited guests, no seats will be reserved and the entertainment will be open to the public.

There will be music by an orchestra and Colonel Tulleys, chairman of the committee on music, reported his commit tee was preparing an interesting program of vocal and instrumental numbers ap propriate to the occasion.

The committee on program, of which Victor Bender is chairman, was not ready to make a report last night beyond that it had an assurance from Gen. Grenville M. Bodge that he would deliver an addrevs. The other speaker has not yet been secured, but the committee is in correspondence with two or three and expects to be able to make a definite announcement in the course of a day or so. It was stated that one of the numbers of the program would be a reading by Miss Fanny Dietrich, the talented and

well-known elocutionist of this city. Mrs. Drayton W. Bushnell, being unable to act as chairman of the decoration committer, Joe W. Smith was named to act in her stead.

It was decided to have invitations printed and these will be sent to the ministers of all the churches, the secretaries of the various fraternal and civic organtrations, the judges of the district court and other prominent persons in this

Mrs. Thomas Metcalf, president of the local chapter of the Daughters of the American Revolution, presided over the meeting, which adjourned subject to the call of President John M. Galvin.

City Officials to Go to Des Moines to Boost for the Passage of the Railroad Terminal Taxation Bill.

The committee on fire and light, of which Councilman Younkerman is chairman, submitted at the meeting of the city council last night a list of thirty-nine fire hydrants which, it was stated, did not come up to the test required by ordinance and did not furnish the required fire protection. Accompanying the list was a recommendation from the committee that no further rental be paid for these hydrants by the city until they are put in condition to furnish the fire protection required by

the city ordinance. The city council concurred in the recom mendation and instructed the city clerk to notify the water works company that no further rental would be paid on these hydrants. Before voting to concur in the recommendation of the committee, Councilman Bellinger inquired if the hydrants included in the list had been properly tested. On assurance from Councilman Jensen that they had, Mr. Bellinger voted with the rest of the councilmen.

The report of the fire and light committee was in pursuance of the following resolution adopted by the city council on Janu-

MATTERS IN THE DISTRICT COURT Grand Jury Charged to Investigate the County Jail.

In his charge to the district court grand jury which was impaneled yesterday afternoon Judge Thornell instructed it to inquire into the conditions of the jails, and to report its findings to the court, that he might make suitable recommendations to the board of supervisors or other respon-

sible body. The former grand jury reported that it had found the county jail in this cty in an unsatisfactory and unsanitary condition and that the conditions as found by it were a menace to the health of the prisoners. The attention of the supervisors was called to the need of radical improvement in the county jail by Ed Canning before he retired from the office of sheriff, but up to date the board has done nothing in the matter.

Delay in train service prevented some of the grand jurors from reaching the city before noon and it was not until after the noon recess that the grand jury was impaneled. A. K. Chambers of Hardin township was appointed foreman and the other members are B. F. Koch of Minden, H. C. Jenkins of Lewis township, O. B. Mc-Bride of Boomer township, H. J. Schier-brock of Neola, P. H. Moran of Council Bluffs, and George W. Jensen of Norwalk

Prospects are that there will be sufficient work to keep the grand jury busy for the remainder of the week at least. Since the last session of the grand jury some ten defendants have been bound over.

Among those bound over to await the action of the grand jury are Walter Goodwin, the "boy burglar" who confessed to a number of robberles, and Jim Quinice, the Greek cook boss of a railroad section gang, who is charged with having acted as fence for Goodwin. Mike Rappe was indorsement on an express money order belonging to another foreigner. George Prultt was bound over on the charge of assault with intent to kill, it being alleged that he slashed his brother-in-law. Neil Walters, with a razor. Pruitt lives at Honey Creek.

It now looks as if it will be the middle, or perhaps the latter part of the week, before the trial of C. A. Wilding, charged with trying to extort money from Charles McKeown, a wealthy farmer of Crescent township, by threatening letters, can be

Yesterday was the day set by the Board of Education on which students of the Council Bluffs public schools should discontinue membership in any secret societies or fraiernities to which they might belong. Owing to the fact that there was no session of the high school classes, nothing was done in the matter. It had been intended to have had a meeting in the afternoon at which Superintendent Beveridge was to have informed the students just what the action of the board was in regard to such secret societies and just what the meaning of the order was. This meeting will be held today.

Superintendent Beveridge expressed the opinion last evening that the whole matter undoubtedly would be settled amicably, and he did not believe from what he had learned that there was any intention on the part of any of the students, boys or girls, to oppose the resolution of the Board of Education. "No drastic measures will be taken," said Superintendent Beveridge, "unless there is a show of open defiance, a condition which I feel certain will not occur. The boys and girls will simply take the order in regard to this question as they would were it any other matter over which the Board of Education has control."

There are, it is said, about fifteen members of the boys' fraternity known as the Omega Eta Tau, and about the same number of girls who belong to the sorority.

CUTTING OFF THE PRIVILEGES

House Members Not to Be Permitted to Put Their Feet on Their Deaks While Dietating to Stenographers.

(From a Staff Correspondent.) DES MOINES, Feb. 2.-(Special.)-The senate made a good start for the week by promptly passing four bills on the calendar, and among them two of very great importance. Yet every one of the bills was passed by a unanimous vote of the senate. The most important was the bill to give specific duties to the county attorneys with regard to the enforcement of all laws of the state. This is a bill by Senator Cosson as a supplement to the bill he had passed last week with regard to giving additional duties to sheriffs. It requires the county attorneys to prosecute

all offenders, and it opens the way for the removal of such officers if they yield to local sentiment and refuse to prosecute. The Dowell bill to require the payment by banks in which county funds are deposited of 2 per cent interest and forbidding the county treasurer from receiveing any benefit therefrom, was passed. This is a departure from the custom which has given to the county treasurer the benefit of this The senate also passed the Francis bill

to require the placing of lights on steam and sall boats in Iowa waters, and the bill to legalize the act of the town of Anamosa with regard to waterworks.

Protect the Committee Clerks, In the house Mr. Allred introduced resolution to forbid members from having their feet on the desks while dictating to stenographers, and compelling them to remove their cigars. It also requires the members to go to the cloak rooms for smoking. The resolution went over.

A resolution in the house by Stillmar would provide a special committee of seven bound over on the charge of forging the to draft amendments to the drainage laws to conform to the new amendment to the constitution

> A resolution by Dewey would lessen the number of bills with a publication clause. For State-Wide Prohibition.

> Senator Whipple presented a petition from inmates of the State institution for Inebriates at Knoxville, asking for the submission to the voters of a constitutional amendment for total prohibition of the liquor traffic. He also presented a number of other similar petitions from persons not in the inebriate hospital.

> The house passed a bill giving \$50 for the burial of a soldier and a bill exempting dentists from jury service.

> Want Reports of Elections. In the house White of Story introduced bill to require that judges of election shall telephone to the county official newspapers the results of the election. Other bills:

Wilson, to establish an antitoxin labora ory at Ames. Smith of Wright, to punish for disturbances in stations.

White, to require advertising for bridge building.
Quigley, to permit counties to employ detectives.

Smith of Mitchell, to describe and legalize bills of lading.

Larrabee, to revise the law as to motor vehicle numbers.

Hunter, raising the age for commitment to the reform schools to 18.
